

Every new hire verified. Every record DPDP-ready.

One place for your background checks, whether your own team verifies or your BGV partner does. No more chasing status on email.

The screenshot displays the BGV Desk interface. On the left is a sidebar with navigation links: Dashboard, Cases (selected), Send new cases, Our users, and Help. The main area shows a 'Cases' list with columns: Ref no., Candidate, Location, Received on, Due, Checks done, Status, and Report sent. The list includes 10 cases with various statuses like 'In progress', 'Insufficiency', and 'Completed'. Above the list are filters for 'All', 'Open' (2), 'Overdue' (0), 'Insufficiency', and 'Completed'. A search bar and a '+ New case' button are also present. To the right, a sample 'Background Verification Report' is shown, detailing client information, location, process, and an executive summary table with components like Employment, Education, Address, and Criminal (police) status, each with a color-coded result (Green, Amber, Red).

Green, amber, red: the result at a glance

Status without the chasing

Each candidate, each check, its due date and result, live. See what is overdue before the joining date.

Whole batches at once

Upload this month's joiners as one Excel sheet, or the documents for a single candidate.

Verify in-house too

Send verification emails to past employers and universities from the system; replies land on the case.

Reports you can file

Colour-coded PDF reports with the verifier's findings, kept with the case and ready to download.

DPDP proof for audits

Consent recorded, data encrypted, every access logged, candidate requests tracked, old data deleted on time.

The right people only

Logins by role and by location, two-factor sign-in, and help in English, मराठी and हिन्दी.
